WORK EXPERIENCE MOST RECENT POSITIONS

FEDEX | Delivery Driver
Nov 2023 - Present | Kamloops, BC

ATLAS POWER SWEEPING | General Labourer
May 2022 - Sept 2022 | Maple Ridge, BC
- Transported power scrubbing equipment to and from job sites, handling loading and unloading duties with proficiency.
- Driving and navigating a truck and trailer to the job site, ranging from 1 to 5 sites per day.
- Used an array of machinery for pressure washing, and power scrubbing, showcasing technical expertise and precision.
- Often exceeded 12-hour shifts while maintaining peak performance levels and gaining valuable experience in a physically demanding environment.

TRIDEM SERVICES | Parts Technician
Oct 2021 – Dec 2021 | Port Kells, BC
- Developed expertise in a non-retail role that matched my personal passions.
- Performed duties as a parts technician, parts driver, and shop assistant, lending support to team members with minor tasks.
- Worked in a fast-paced shop environment and drove a variety of company vehicles, including small pickups and semi-trucks.
- While I enjoyed the position, I decided to leave to continue higher education in Computer Science.

LORDCO PARTS | Shipper, Counterman & Delivery Driver
Oct 2019 - Oct 2021 | Maple Ridge, BC
- Demonstrated versatility by working in multiple departments such as counterman, cashier, and shipper.
- Consistently exceeded daily sales targets and contributed to store efficiency improvements.
- Being a shipper included dispatching drivers for deliveries, unloading 4+ warehouse runs daily, and handling various tasks simultaneously.
- Developed essential skills such as time management and customer service while on the job.

PROJECTS

TicTacToe AI:
Researched and implemented AI algorithms and neural network functions to understand the application of AI in a game to use for future projects.

Android Schedule and Planner App:
Developed 4000+ line Java and Android Studio application with modern UI to increase productivity in courses and daily life.

Personal Portfolio Website:
Developed an interactive and modern portfolio website to learn front-end website development skills.

Drop Stopper Game:
Interactive windows console game in which the user types to stop falling numbers from reaching the bottom.

Jetski GPS Speedometer, Tachometer, & Fuel Gauge:
Designed an Arduino-based display for a Jetski, featuring speed, rpm, and fuel level readouts.

Jetski Restoration Series:
Created a three-part YouTube series on the rebuild and restoration of a jetski.
